- Python Web and APIs
- REST apis wuth Flask and python
- Python programming - Udemy

ABOUT

Passionate **web developer** dedicated to innovating and creating seamless digital experiences. Committed to using creativity and technical skills to develop visually appealing and functional websites.

EXPERIENCE

• Web development Intern

Vreendaar IT Solution Pvt. Ltd. (dec 2023 - march 2024)

- Acquired frontend skills like React, HTML5, CSS3, JavaScript. Designed responsive components with Tailwind CSS.
- Contributed to the frontend development of a project using React, enhancing the user interface and user experience.
- Applied best practices in web development to create clean, efficient, and maintainable code, enhancing user experience and interface design.

• Web Development and Designing intern

Oasis InfoByte (oct 2023 - nov 2023)

- Acquired hands-on experience in frontend technologies such as HTML, CSS, JavaScript etc.
- Independently developed and implemented web applications showcasing skills in responsive design and dynamic functionality.

PROJECTS

• Personal Portfolio [Live](#) [Github](#)

Tech Stack : HTML | CSS | ReactJs | Bootstrap

- Designed a React-based personal portfolio with a responsive design for accessibility across devices.
- Implemented lazy loading for optimal performance.

• Weather App [Live](#) [Github](#)

Tech Stack : ReactJs | TailWind | HTML | CSS | RESTful API

- React weather app fetches real-time data from API.
- Integrated dynamic updates of temperature and background visuals with responsive design using Tailwind CSS.

• Real Time Chat WebApp [Live](#) [Github](#)

Tech Stack : Web Socket (Socket.io) | MongoDB | ExpressJs | ReactJs | NodeJs | Chakra UI | RestApi

- Real-time chat app with Socket.io and MERN stack.
- Responsive designed real-time chat application with instant message delivery and live typing indicators for both one-on-one and group chats, ensure secure credential saving through encryption.

• Secure file storage system [Github](#)

Tech Stack : Python | Flask-Framework | Html | CSS | JS | Cryptography | FireBase | Cloud storage

- Implemented robust solution for secure data storage utilizing AES and DES cryptographic standards.
- Augmented security with dual-layered password authentication
