WORK EXPERIENCE :

- **Web development Intern**   *(dec 2023 - march 2024)*
  At Vreendaar IT Solution Pvt. Ltd.
  - Acquired frontend skills like React, HTML5, CSS3, JavaScript. Designed responsive components with Tailwind CSS.
  - Contributed to the frontend development of a project by applying best practices to create clean, efficient, and maintainable code, using React, enhancing the user interface and user experience.

- **Web Development and Designing intern**   *(oct 2023 - nov 2023)*
  At Oasis InfoByte
  - Acquired hands-on experience in frontend technologies such as HTML, CSS, JavaScript etc.
  - Independently developed and implemented web applications showcasing skills in responsive design and dynamic functionality.

PROJECTS :

- **Personal Portfolio**   Live   Github

  Tech Stack : HTML | CSS | ReactJs | Bootstrap
  - Designed a React-based personal portfolio with a responsive design for accessibility across devices.
  - Implemented lazy loading for optimal performance.

- **MERN-mart**   Live   Github

  Tech Stack : ReactJs | Redux Toolkit | Stripe | PassportJs | Mongo Db | ExpressJs | NodeJs | RestApi | JWT | Tailwind | CSS | XML | Vercel
  - Full-stack eCommerce site with secure JWT authentication, Stripe payment integration, and state management using Redux Toolkit.
  - Responsive design with Tailwind CSS, includes admin panel for managing products and orders.

- **Weather App**   Live   Github

  Tech Stack : ReactJs | TailWind | HTML | CSS | RESTful API
  - React weather app fetches real-time data from API.
  - Integrated dynamic updates of temperature and background visuals with responsive design using Tailwind CSS.

- **Real Time Chat WebApp**   Live   Github

  Tech Stack : Web Socket (Socket.io) | MongoDb | ExpressJs | ReactJs | NodeJs | Chakra UI | RestApi
  - Responsive real-time chat app built with the MERN stack and Socket.io, featuring instant message delivery, live typing indicators for one-on-one and group chats, and secure credential encryption.

- **Secure file storage system**   Github

  Tech Stack : Python | Flask-Framework | Html | CSS | JS | Cryptography | FireBase | Cloud storage
  - Implemented robust solution for secure data storage utilizing AES and DES cryptographic standards.
  - Augmented security with dual-layered password authentication
